dwellex

your home in your hands

Dwellex is designed for homeowners who want a seamless way to monitor and manage their smart home systems. Whether you're focused on security, automation, or energy efficiency, Dwellex puts control at your fingertips.

Dwellex integrates security monitoring, home automation, and energy management into one intuitive platform. With Dwellex, users can:

- Secure their homes with live camera feeds, motion sensors, and alarm tracking.
- Automate smart lights, appliances, and climate settings for convenience and efficiency.
- Optimize energy use with real-time smart meter data and energy-saving insights.

Dwellex operates on a specialized tablet designed for home management. Mounted on a wall or used as a portable hub, the tablet serves as the central command centre, ensuring effortless control over every connected device in the home.
